DRY FOOD

Delicious dry food for meals or grazing 350g, 800g, 2kg

- ✓ **Complete & Balanced Recipes**
- ✓ **Made with Proper Meat & Fish**

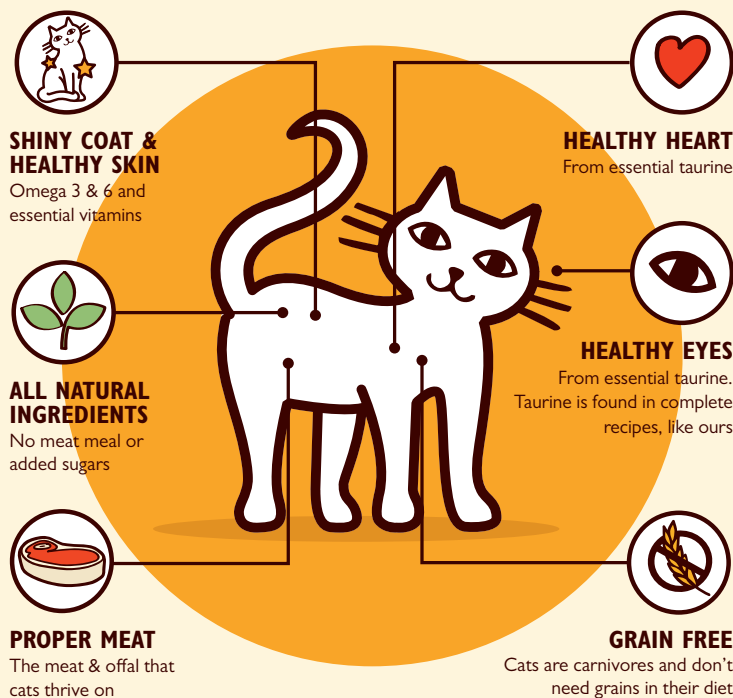

Cats love to graze, and so it's always a good idea to leave some tempting kibble out for them to enjoy when it suits. This can be fed alone, as it's a complete recipe and made with 70% freshly prepared meat or fish - or else we recommend feeding our wet recipes morning and evening (to help hydrate), with some dry food at the touch of their paws in between meals. What cat doesn't love the best of both worlds?!

THE BENEFITS

All our meals for cats are nutritionally complete, balanced and packed full of proper meat, to help nourish your feline so they can be their very best selves.

 **LIKE CATS** WE DON'T TAKE THINGS LYING DOWN
(OH, OKAY KITTY YOU DO YOU)

If your cat knows that your spot on the sofa is better suited to them, they'll go for it. Thought breakfast was best served at 9am? Kitty's here with a crack of dawn lesson or two. So when we learned that most cat food doesn't cut the mustard, we went full on cat and did the absurd - we made complete, natural recipes made with proper meat.

ROGUE, WE KNOW, THAT'S JUST HOW WE ROLL
(BUT DON'T TOUCH OUR TUMMIES)

So cats, join us in the rebellion. Raise a paw, twirl your tail and give us your best resting nap face (just the latter? Okay, don't worry, we've got you). All you really need to do is tuck in - see, told you it was good.
